NORTH EAST ENGLAND / COMMERCIAL CONTRACTOR

Remedial groundworks & external customer care

Specialist support for housebuilders and civil engineering contractors across the North East. Experienced management and operational teams, coordinated delivery and practical solutions from instruction through to completion.

Residential kerb and channel works

Our services

01 Remedial groundworks

Kerbs, channels, edgings, tactile paving, utility chambers, block paving and local tarmac reinstatement.

02 External customer care

Driveway settlement, paving and patio defects, drainage and external levels. Office coordination of homeowner appointments and updates.

03 Development completion

Pre-surfacing preparation, defect schedules and works supporting road, footway and drainage adoption programmes.

Commercial arrangements

Agreed schedules of rates, daywork or individually priced packages. Contact us with your defect list, quantities, drawings and programme requirements.

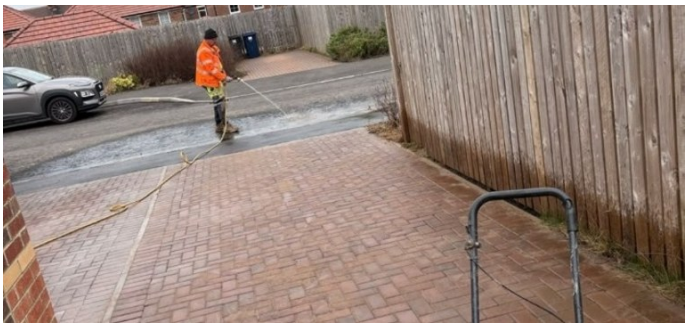
Genuine site photography from our affiliated businesses, including work in progress.



Driveway reinstatement

Footpath surfacing

Block paving in progress

Footway and kerb works

How we deliver

01 Agree the scope

Confirm locations, quantities, specification, priorities and access.

02 Coordinate the works

Allocate resources and manage communication with clients, site teams and residents.

03 Deliver and check

Work to agreed requirements, with task-specific planning and management oversight.

04 Report and close out

Provide progress updates and photographic completion records.

Health, safety and quality

Task-specific risk assessments and method statements, operative competence and agreed site controls. Client-specific approval and accreditation requirements can be discussed during onboarding.
